

THE TECH

VOL. XXXIII. NO. 56.

BOSTON, MASS. WEDNESDAY, OCTOBER 22, 1913.

PRICE TWO CENTS

FALL HANDICAP MEET TO BE HELD SATURDAY

Entries Close Tomorrow Night—
Cross-Country Run This Afternoon

This afternoon the cross-country men will leave Back Bay at 4.07 for a run over the regular Tech course, which starts at Highland. All men should go, if possible, as the course is somewhat changed since last year and the trials are not very far off.

This Saturday the Annual Fall Handicap Meet will be held at Tech Field, Brookline, at 3 P. M. Entry books have been posted and many

have signified their intentions of running. At the Field many of the Varsity men are out regularly, and besides these there is a considerable squad of new men. Huff and Curtis are both out for the hurdles, Wilkins and Wilson for the sprints, Guething has been running pretty regularly and Fox is out also.

All the regular events will be run off and this is an excellent opportunity for new men, as the handicapping is always liberal and the practice of being somewhere near the finish of a race is invaluable. The handicapping also renders it impossible to tell anything of the probable results. The entry books close tomorrow night and the handicaps will be announced in Saturday's issue of THE TECH.

The officials of the meet will be:

Referee—James R. Lambirth.

Timers—F. M. Kanaly, D. L. Sutherland, G. E. Whitwell.

Judges at Finish—F. Hurlburt, H. G. Storke, E. E. Dawson, H. L. Leeb.

Clerk of Course—J. Barker.

Assistant Clerk of Course—J. M. Burford.

Judges of the Field—N. D. McLeod, M. E. Hill, J. P. Uhlinger, H. R. Crowell.

COURSE XIII MEETING

Held At The Union Yesterday—
Editorial Discussed.

Yesterday afternoon the Naval Architects Society held its first meeting of the year. The purpose of the meeting was to arrange plans for the future gatherings this winter.

The subject of the Editorial in the Monday issue of THE TECH was discussed. The members after viewing the matter from all sides unanimously decided that the question of class dues should be left to the individuals as it had nothing to do with either the Course or the Society. After this it was voted to hold an informal dinner at the Union, Wednesday, November 5th, and that Mr. De Witt C. Ramsay be appointed to arrange it. The secretary was instructed to approach the second year men of Course XIII in regard to joining the Society.

Following this motion the meeting turned to the question of the talks to be given during the winter. A. L. Todt, E. Burton and W. S. Aiken were elected as a program Committee to arrange for speakers. The meeting adjourned at 5 o'clock.

1916 NOMINATIONS UNCONSTITUTIONAL

Institute Committee Decides—New Nomination Petitions Necessary.

At a special meeting held at 5 o'clock yesterday the Institute Committee resolved itself into a sort of court or jury to settle the controversy between the Sophomore Governing Board and the Nominations Committee. Norris, the Chairman of the Nominations Committee, stated the case for the Committee and C. T. Guething represented the class Governing Board.

Norris referred to his communication printed in THE TECH yesterday. He also quoted the part of the class constitution which provided that the President should appoint the Nominating Committee a week before the expiration of his term. Norris argued from this that the President's office was vacant at the time of the beginning of the controversy and that Guething had no right to interfere at all.

Guething said that Norris and Shepard had both given the impression over the telephone that it would be all right to bring in the nomination papers next morning. The circulators of the petitions, relying on this information, had not made the effort to get them in on time.

Subsequent discussion brought out much information of conflicting character as to the time when the Nominations Committee was called up, the failure of the Nominations Committee to appear before the Governing Board and the motives inspiring the two parties to the dispute. Much of this discussion was of a personal nature, and the members of the Institute Committee perceived that the only basis for settling the matter was the question of the constitutionality of the proceedings of the disputants. It was pointed out that the class constitution provided for the circulation of nomination petitions after Field Day, and hence the present nominations of both lists were premature and unconstitutional.

In opposition to this view it was contended that the Undergraduate Constitution adopted last spring automatically changed the class constitutions by declaring that the representatives from the classes to the Institute Committee should

(Continued on page 4.)

HANDBOOKS DISTRIBUTED

Supply of Two Hundred Copies Does Not Last Long.

The supply of about two hundred copies of "A Handbook of the Principal Scientific Institutions of Boston and Vicinity," which was placed at the Cage for general distribution yesterday, lasted but the rest of the day. The books, which were sent to The Cage by Assistant Registrar Wells, were printed by a congress, held in this city seven years ago, of the American Society for the Advancement of Science, and is in the main, a treatise on the universities, colleges and other educational institutions, the museums, libraries, and public works, in and around Boston.

DORRANCE ELECTED SENIOR PRESIDENT

Wins by Small Plurality Over Fox—Williams Vice-President.

Returns from the senior elections show that A. C. Dorrance has been elected president, with C. E. Fox a close second. F. W. Williams was elected vice-president.

Dorrance was vice-president of his class in his freshman year and was on the tug-of-war team. In his second year he was on the class Election Committee and the relay team. Last year he was editor-in-chief of Technique. He is a member of Sigma Alpha Epsilon Fraternity and of Osi-

ris, and comes from Philadelphia.

Williams was on his class football team and was captain of his class basket-ball team. He is a member of the Biological Society and of Theta Delta Chi Fraternity. He comes from Springfield, Mass.

C. H. Ober, of Newport, R. I., was elected treasurer. He belongs to the Mandolin Club, the Tech Show Orchestra, and the Program Committee of the Civil Engineering Society. He was on his class tug-of-war team, and is a member of Phi Sigma Kappa Fraternity.

H. W. Treat, who was elected secretary, was captain of the wrestling team and is a member of the Institute Committee. He is a member of Delta Kappa Phi Fraternity and comes from Omaha.

E. W. Mason and George Beach were elected to the Executive Committee. Mason comes from Pretoria, South Africa, and is a member of Delta Kappa Epsilon Fraternity. Beach was Statistician of Technique. He is from Fort Collins, Colorado, and belongs to Sigma Alpha Epsilon Fraternity.

A. E. Peaslee, who polled the highest vote for the Athletic Association, is from Cambridge. He is Chase Captain of the Hare and Hounds Club, and is treasurer of the Civil Engineering Society. He belongs to the Alpha Chi Rho Fraternity of Trinity College. A. D. Hiller, of Marion, Mass., the second man, was on the Technique Electoral Committee and the Prom. Committee. He is

(Continued on page 3.)

JUNIOR BALLOTS

The ballots for the Junior Class elections are due at the Cage at 4 P. M. today. Class dues may be handed in with the ballots.

ORCHESTRA MEETING

Only Fifteen Out—More Wanted At Meeting Next Tuesday.

There was a meeting of the Tech Show Orchestra yesterday afternoon at 5 o'clock in the Union. The rehearsal was led by F. L. Surls, 1914. There are still several vacancies to be filled. A drum is needed, a bass violin, two cellos, and more brass. Another meeting is to be held next Tuesday at 5, and the management is anxious to have more men come out.

CIVIL ENGINEERS TO VISIT NEW BUILDING

Paine Company's New Re-enforced Concrete Structure To Be Visited.

The Civil Engineering Society has made arrangements to visit the new re-enforced concrete building now being erected by the Paine Furniture Company at the corner of Arlington street and St. James avenue.

The trip is to be taken in two sections. The first will go Saturday afternoon, October 25, and the second Tuesday afternoon, October 28. Only a small party can be taken Saturday afternoon, but all those who are not able to go Tuesday are advised to make it a point to be on hand Saturday.

A list has been posted in 41 Engineering A, the fourth year drawing room. All who wish to take the trip Saturday must sign their names to this list before Friday noon. Notices will be posted concerning the Tuesday trip, in the Sophomore, Junior and Senior drawing rooms, later in the week. Those who are to take the trip Tuesday must sign these.

This new building will be of special interest to the students because of its style of construction. It is what is known as the mushroom type of re-enforced concrete. The work on the lower floors is practically completed and the upper floors are now being covered by cinder concrete. All stages of the construction can be studied.

Those who take the trip Saturday will meet on the steps of Engineering A, at 2 P. M.

ADDRESS TO COURSE VII

Mr. George R. Taylor, a graduate of the Institute, will address the advanced students of the Course in Biology and Public Health tomorrow at 4, in 28 Pierce. Mr. Taylor is at present connected with the Gas and Water Company of Scranton, Pennsylvania.

Anyone interested is invited to attend.

WEATHER

For Boston and vicinity: Wednesday fair; diminishing westerly winds.

WEDNESDAY, OCTOBER 22, 1913

While the action taken yesterday by the Institute Committee is certainly a constitutional way out of the difficulty, in our opinion it leaves something to be desired in the way of justice. With the decision to hold complete new nominations we have no fault to find; it is clearly the only solution in strict accordance with the constitution. The totally needless trouble and delay which it will cause is to be laid at the door of our system of adopting class constitutions without, as it were, giving the matter a second thought. This was discussed in this column two days ago.

But there is another matter which should have received the attention of the meeting; namely, the specific exoneration of the balloting committee from the suspicion under which they were placed by the action of the governing board. They have proved to the complete satisfaction of all unprejudiced hearers that they acted throughout with perfect sincerity and honor. It would seem that the work of the meeting was not finished without the complete removal of the stigma which attaches to the dissolution of a committee on a serious suspicion, even when the latter proves erroneous.

The final motion, as originally made, did indeed include a provision designed to exonerate the committee, providing that the new nominations be entrusted to them; but this was withdrawn on the showing that the matter was outside the jurisdiction of the Institute Committee. We think something in the nature of this provision should have been retained, if only as a recommendation, for the reason we have stated.

A charge of dishonesty in office should certainly not be even hinted at unless its sponsor has proof to back it; far less when all the data tends to show the contrary. Such a hint was dropped by an excited partisan, not a member of the Institute Committee, at the meeting yesterday. That the non-partisans present regarded the charge as ridiculous was

shown by the succeeding discussion, and we believe every impartial hearer thought as we do that the remark was, to say the least, in very poor taste.

MORE ANONYMOUS GIFTS FOR THE INSTITUTE

Half Million Given For Buildings—Endowment For Electrical Laboratories.

President R. C. Maclaurin announces today that two new gifts have come to the Massachusetts Institute of Technology from anonymous donors, sums of half a million and one hundred thousand dollars respectively. The gifts were tendered shortly before Dr. Maclaurin went abroad in August, but not announced till now. There is an understanding that the half-million is to be used for the buildings while the hundred thousand has no restriction whatsoever.

It has become quite the fashion for interested men to give anonymously to Technology, and since the name of Mr. Smith has been associated with the great first one of two and one-half million dollars for the new buildings, the others may perhaps hail from the same great family. The second "Mr. Smith" gave to the Summer Surveying Camp the money—about fifty thousand dollars—with which to build the permanent structures, while the third and fourth bring the record of anonymous gifts up to three million one hundred and fifty thousand dollars.

Other gifts of the year include the endowment of above one hundred thousand for the endowment of the Electrical Research Laboratory, in July the Speare bequest of five thousand, in September the will of Francis Bartlett named for the Institute one hundred thousand subject to certain contingencies, while the alumni fund has passed by considerable the half-million mark.

COMMUNICATION

To the Editor of THE TECH:

Will you kindly print the following communication to the men of the Sophomore Class?

With better weather now, I want more men out for Tug-of-War. Every man who was out last year, as well as every other man who is not out for some other event, should report. Practice will be held today (Wednesday) at 4 o'clock at the Gym.

Kenneth M. Sully, Manager.

It is incumbent on Engineers to become versatile, cultivated men. If we cheapen ourselves by avoiding or slurring those subjects which educate us as men, because we cannot see that they aid us as bread-winners, our profession is but little more than a trade. We will receive lower money returns than lawyers and surgeons, and our opportunity for high service will be lessened.—Shenehon.

"Modern engineering is a combination of science and art by which all strictly material productions that involve construction, either directly or indirectly, and which are serviceable to mankind, are evolved, designed, and materialized."—Waddell & Harrington.

The rain quite effectually stops the outdoor work in preparation for Field Day.

The time for repairing drill suits is almost past.

ANNOUNCEMENT

TECH MEN: I wish to inform you that I am no longer at the Westminster Hotel Barber Shop, but now with the Copley Sq. Hotel Barber Shop, corner of Huntington Ave. and Exeter St., where I shall be pleased to meet my many Tech friends and their acquaintances and will be in a position to give them a first-class service in an up-to-date shop.

Respectfully yours,
JAMES J. MURPHY.

FOR RENT—Two large, light well furnished rooms on Beacon St. Very Pleasant surroundings and desirable location. Apply to K. D. K. care of THE TECH.

POSITION WANTED—Experienced housekeeper desires position with fraternity; best of references furnished. Apply to Mrs. M. A. G. care THE TECH.

TUTORING—In Chemistry, Technology, Physiology, and Hygiene, by a German expert physiological chemist, scientist, and lecturer. Opportunity to accomplish study in the German language. Very reasonable terms. Apply 5 to 7 P. M. to J. Perino, Suite 25, 416 Marlboro St., Corner Mass. Ave., Boston.

SENIOR ELECTION

(Continued from page 1.)
a member of the Theta Delta Chi Fraternity.

The men elected to the Institute Committee are E. E. Dawson and L. W. Snow. Dawson belongs to Delta Kappa Epsilon Fraternity, and comes from Winthrop, Mass. He was on the tug-of-war team and the Technique Electoral Committee and was Treasurer of Technique. Snow is from Rochester, N. Y., and is Treasurer of the Cosmopolitan Club and belongs to Theta Delta Chi Fraternity.

Below is the summary of the votes received by each man:

For President—A. C. Dorrance, 50; C. E. Fox, 46; C. P. Fiske, 35.

For Vice-President—F. W. Williams, 62; R. C. Doremus, 34; H. B. Richmond, 30.

For Treasurer—C. H. Ober, 78; J. B. Reber, 31; B. H. Hale, 21.

For Secretary—H. W. Treat, 67; H. A. Mayer, 38; D. R. McEnery, 26.

For Executive Committee—E. W. Mason, 80; George Beach, 63; L. F. Hamilton, 50; E. M. Newlin, 37.

For Institute Committee—E. E. Dawson, 75; L. W. Snow, 64; A. H. Watt, 40; G. E. Whitwell, 31; L. B. Duff, 25; S. H. Harper, 14.

For Athletic Association—A. F. Peaslee, 84; A. D. Hiller, 61; W. L. McPherrin, 55; H. A. Morrison, 48.

PHYSICAL LABORATORY NOTE-BOOKS

Students desiring to obtain their physical laboratory note-books are requested to call for them at once in Room 16, Walker.

All books remaining unclaimed after November 1st will be confiscated. H. M. Goodwin.

The Sophomore Ballot dispute has gone to higher authorities and has been satisfactorily settled.

ALTERATIONS OF SECOND-HAND UNIFORMS

A representative of the uniform contractors will be at the Armory during the Wednesday drill periods, Oct. 22 and Oct. 29, to take charge of all parts of uniforms requiring alteration as to fit or ornamentation. Students are at liberty to have the work done anywhere providing it is done properly but arrangement has been made to have this work done by the contractor at rates which are reasonable and probably cheaper than those charged elsewhere. This work should be attended to at once as when the new uniforms arrive the workmen will have all their time occupied by work on them and excuse will not be accepted for work delayed through carelessness. The address of the tailor employed for this work is James Greatorex, No. 27 Causeway St. You can go there, but will save trouble by turning in the articles at the Armory not later than October 29th, and better still on the 22d.

EDWIN T. COLE.
Major, U. S. Army.

LOST—On October 20, between Lowell Building and Newbury St., a pair of torric glasses in black case. Slur-On springs, temples in case. Return to C. W. L., 12 Newbury St. Reward.

FOUND—A pair of glasses. The owner can obtain them by calling at the Bursar's office; also a lunch ticket for one of the local lunch rooms.

**FRESHMAN RELAY
TEAM TIME TRIALS**

Thirty Men Out for Preliminary Try-outs—Finals Come In Ten Days.

Yesterday about thirty Freshmen took the preliminary trials for the Relay Team. The showing made was quite satisfactory, although there is much room for improvement. There still remain ten days before the final try-outs, so that any new men who wish to make the team have an opportunity to do so. About ten men who have been out for practice did not take the trials. The performances of these men may change the outlook, but they are not likely to have as favorable weather as there was yesterday.

1916 NOMINATIONS

(Continued from page 1.)

take their seats at the end of the fourth week after the beginning of the school year.

Some appeared to think that the adoption of the Undergraduate Constitution by the body of the students necessarily altered the class constitutions, but others held that only the classes themselves could change their constitutions and that the Institute Committee could not assume the existence of anything except the letter of the document. The question of the constitutionality of accepting any nominations at this time was thus in doubt. There was also a discussion as to whether the Governing Board had any right to dissolve a nomination committee which had been regularly appointed.

It was finally decided that the question was one of the interpretation of the class constitution. A motion was passed declaring that the sophomore constitution should be upheld to the letter of that document.

In the discussion as to what was the letter of the constitution, the point was made that the Undergraduate Constitution could not change the provisions of the class constitutions since it merely stated the time at which the class representatives should take their places on the Institute Committee and did not pretend to regulate the time or manner of the elections. The general sentiment seemed to be that the 1916 constitution must be considered in exactly the form in which it was written. Looked at in this light, the whole proceeding of calling for nominations seemed contrary to the constitution. A motion was made by A. H. Waitt, declaring the sentiment of the Institute Committee to be that the present Sophomore nominations are unconstitutional and that nominations must be reopened at the proper time. The motion was carried and the meeting adjourned.

COMMUNICATION

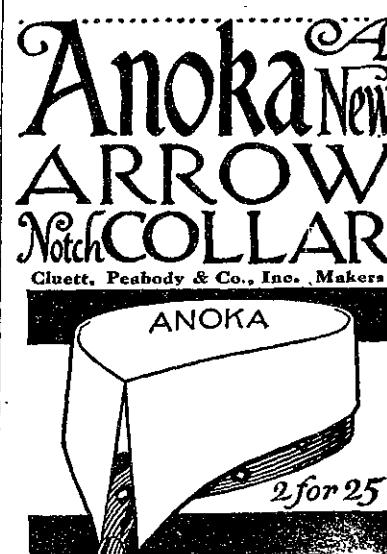

To the Editor of THE TECH.

Will you kindly print the following communication to the Class of 1917?

Field Day is only two and a half weeks away. This means that more men will have to come out and work hard for the Tug-of-War Team. Judging by the number of men who show up for practice every day, there are very few in the Class of 1917 who have any spirit.

If you want to win Field Day, come out to the Gym every day and work for the Team. We have only thirty men out; we want sixty. Wake up—show up!
